1. About ONYX

BOOX is presented by Onyx International, which has a group of professionals who dedicate themselves in designing state-of-the-art reading terminal. The beauty of the BOOX is embodied in both its simplicity and its power. As we are going to show you, BOOX is an open and flexible platform for both consumers and content providers.

BOOX is powered by a 16-level grayscale e-ink screen that looks and feels like paper. Passive lighting and diffuse surface relax your eyes and reduce eye strain. By the hand-writing system, you can take notes while reading and sketch up ideas that happen to emerge. BOOX takes full advantage of new-generation e-ink screens: extremely low power consumption without reflection and backlight. Each full charge can sustain a few weeks' reading. By reducing paper consumption while providing a realistic paper-like reading experience, digital content helps to protect the environment without sacrificing convenience or life style.

For content partners, we also provide support for custom formats and digital rights management solutions. All of our viewers have standard features such as layout management, font adjustment, full text search, zooming, and page flow.

For a next-generation information device, connectivity is essential. The user can connect to the Internet by build-in Wi-Fi, 3G module or other add-on modules to download new content or surf the web. Customized for the e-ink screen, WebKit, the same software engine as some powerful desktop browsers such as Safari and Chrome, is the web browser of BOOX.

BOOX gives you a new reading experience.

2. Standard Accessories

Included in the Box :

1. BOOX MAX Reader	x1
2. Stylus Pen	x1
3. USB Cable	x1
4. Quick Start Guide	x1
5. Warranty Sheet	x1
6. Protective Cover	x1

Optional Accessories (Purchased separately)

- 1. Adapter
- 2. Stereo headphone

3. Safety Guide

Please read the Safety Guide carefully before you start to use the device. Contact your BOOX retailer if you have any technical problem; or you can dial our official service line at 4008-860-830.

Screen protection

The device is equipped with Eink screen, which is very fragile. Please have no shocking, squeezing, pressing against the screen, or dropping the device from higher place. If the screen is already broken, stop using it and contact the professional or other qualified staff to replace the screen for you. Please don't dismantle the device without our permission;

Only the battery, adapter, and other accessories meeting our standard safety rules can be used for the device. For details, please refer to Product Specification. We will not be responsible for any damage caused by incompatible accessories;

Stay away from liquids

The device is not waterproof. Don' t expose the device to humid

environment or use it in the rain. Please keep it away from any corrosive liquids;

🛞 Don't dismantle the device

Please don't dismantle the device in case of any damage;

Using environment

The using environment of the device is 0°C-50°C ;

Button Function

	 Press the power button to turn on the device
Power/	 Press the power button and hold for 2 seconds to turn off the
	device. Or select "Power off" in the menu to turn off the device.
Standby	 Press the power button and release quickly to let the device go
	standby or wake up.
Button	 Press the power button for 8-10 seconds to reset your device ,
	then press it quickly to restart .
Monu Putton	 Press the menu button to pop up the menu.
Menu Button	 Same as the function that tapping the menu icon on screen
	• Exit the current apps;
Back Button	• Exit the current view or dialog;
	 Go back to previous directory
Next Button	• Turn to next page when reading or viewing files;
Prev Button	 Turn to previous page when reading or viewing files;
Mic	Recording voice
Audio Jack	• Diameter of the audio jack is 3.5mm
SD Card Slot	 Insert MicroSD card to read the content on MicroSD card
USB Slot	• Connect the device with PC to transfer data or recharge.

5. Interface Introduction

5.1 Main interface

The main interface contains "Status Bar", "Now Reading", "Recent

Added" and "Function Area";

Status bar

☆ ∞ / * * * * 10:33 (i) (i) (i)

This section displays the current state of the device, including: Home icon, Battery Usage, Notification, Time, One-Click Clearance, Switch between Pageturn / Volume buttons, A2 mode on/off, Menu;

A2 mode refreshment

Two-grey level refreshment mode is good for fast refreshment of text page.

It enables fast pageturn, no screen flashing and less ghost background.

When A2 mode is on, reading articles with images, graphics, texts mixed are

not recommended because the images may not fully shown;

Switch between Pageturn / volume

This indicates button is set as pageturn function by default for the

pre-installed application of the device;

This indicates button is set as volume adjustment function by

default for third-party application;

Clicking the icon will clear the backend running applications and

release internal memory to have faster running of the device;

Now Reading

• The recently read books information is displayed in this section, including

book cover, book title, author, page number, last read time, reading progress

etc.;

• Open the book by tapping book cover or book title and read from where you

left off last time;

• Read books can display book covers while those unread books shall display

BOOX cover by default;

[– Page:1/57

BOOX NING	BOOX Users Manual .pdf	
User Manual	Onyx International Inc.	

Recent Added

The newly added books are listed here chronologically. There are total 8 pages

of the list. Swipe to left/right to check more newly added books;

Function Area

This section displays some frequently used function icons, including Library,

Storage, Apps, Frontlight, Setting, Browser...etc;

All books from both internal storages and MicroSD card are displayed here.

It is non-file management mode;

But user can choose to only display the books from directory "Books" by

User Preference of Setting;

All folders from internal storage and MicroSD card will be displayed here.

Users can manage documents and folders from page;

Apps page allows users to manage or uninstall all apps;

Going to Setting page, users can manage settings for the whole device.

5.2 Notification board

• Tap battery usage site on the left of the Status Bar to pop up Notification

board; Press Back button or tap Home icon can exit.;

• Notification board contains: WiFi setting, date, volume control, setting, and

other new msg notice etc;

6. Reading Page

• Tap any book cover to open a book. Full-screen reading without showing

status bar and page bar is set by default;

• Support multiple document switching, up to 4 documents can be opened at

the same time, support for a separate shutdown, exit will not automatically

close the document;

- The current reading of the document label with highlight;
- Hide / show document tab bar by the button on top left;

- Tap middle column of the book content to pop up reading menu and status bar;
- Status bar contains: Back, Prev. / Next, Dictionary, TOC, Search;
- Reading menu contains: Zoom in/out, Navigation, Notes, Rotation and more

settings.;

• To zoom in/out the page freely; Other zoom shortcuts are available: To width,

To page, Crop, Selection to zoom (reflow is not supported);

Navigation

• To have options of manual croping、number of columns and reading order;

• To check TOC, Bookmark, Annotation and export Annotation;

Rotation

Horizontal and vertical displays are available to choose;

Prev. /Next

- To view previous or next page quickly;
- Icon in grey means no further previous / next page available; Icon in dark means more pages available;

Dictionary

 When reading, long press on the word to pop up Dictionary dialog for look-ups. Stardict\bg\mdict dictionary formats can be supported. Users can download and install dictionary themselves. Put dictionary file on the path root directory \dicts\xxx (e.g root directionary\ dicts\ English-french) , or download dictionary online directly. Dictionary is available to use after being installed;

 To access TOC page where user can switch between pages of Bookmark, Notes, Scribble etc; 🗟 Search

• To search text within the book; To switch input type methods by long press against Search Box;

G Refreshment

• Users can select screen refreshment rate by their preference. 3\5\7\9 refreshment rates are available to choose. Every 5 pages to refresh is set by default;

· Page margin, footer, time, navigation and dictionary for current content are

shown for setting.

6.1 Table of Content

6.1.1 Table of Content

Pop up Reading menu by tapping the middle column of the screen when reading. I at the top menu is TOC. Tap it to go to TOC page where user can switch between pages of Bookmark, Notes, Scribble etc;

TOC supports three list levels. Current level is underlined. Jump to the corresponding page when tapping any of the level list;

Copyright © 2017 Onyx International. All rights reserved.

6.1.2 Bookmarks

· Bookmark the reading page by simply tapping the right up corner of the

screen when reading. Tap it again to un-bookmark the page;

• Bookmarks can be checked under the page of TOC-Bookmark, where users

can delete bookmarks.

Jump to the corresponding page by tapping any of the bookmarks;
